

Science

We will be comparing animals and humans. Classifying and sorting different types of animals. We will label body parts of animals and humans.

Music

Mrs Stroud will be teaching Willow class for music sessions. The children will be learning songs for Harvest and have an introduction to body percussion, composition and rhythm. The children will also be introduced to notation.

Theme / IB

Through our theme learning we will investigate our main line of inquiry. We will have a circle time and RE focus of looking after others. Our art work this term will be related to animals and humans. As well as in RWI we will also have other writing opportunities. Our extra writing opportunities will be linked to animals and humans. Some texts we may use this term include Funny bones and Tinga Tinga Tales.

We will also be having a 'Roald Dahl' day in school.

Next week Willow class will start to visit the school library. Our library day will be a Thursday. Children will have an opportunity to look at books and bring one home to share. Children can keep the book they choose for up to one week. Please ensure children have their library book back in school by the following Thursday ready to change for a new one.

More information to follow regarding homework including spellings, book band books and maths homework.

I will also be arranging a coffee morning drop in session for year 1 parents.

Termly homework

Children are to choose 1 or more homework task they would like to complete this term. Termly homework is due in school the last week of term.

Option 1: Create a 'Top Tips' poster to inform other children how to take good care of themselves.

Option 2: To make a model of the human skeleton.

Option 3: To create a picture of healthy food options.

If you have any questions or queries, please do come and find me at the end of the school day.

Miss Featherstone
