

Pupil Premium Statement 2020/21

Pupil Premium is an additional annual payment to schools for each 'disadvantaged' child that attends their school. The definition of a disadvantaged student is any student who has received free school meals in the last six years. This funding is given in recognition of the fact that, nationally, disadvantaged children do not perform as well as their non-disadvantaged peers.

Cherry Orchard Primary Academy has a percentage of 22% students which were defined as disadvantaged at the beginning of the 2020/21 academic year. We are all working hard to ensure that whether your child is eligible for Pupil Premium or not there should not be any difference in their rates of progress or attainment.

The barriers that disadvantaged students at Cherry Orchard Primary Academy **may** face are outlined below:

- Special Educational Needs, 23% of disadvantaged children at COPA also have SEN
- Low levels of stability with many disadvantaged students joining the school part way through the academic year or key stage and sometimes moving on again relatively quickly
- Overcrowded or inappropriate housing
- Living with one, working parent so extended schools/childcare is essential
- Lack of Higher Education amongst parents
- Low levels of parental literacy
- They are children in care or have been adopted from care

Provision

Cherry Orchard Primary Academy will receive a £39,005 pupil premium grant for the academic year of 2020-21. The funding provided to Cherry Orchard Primary Academy is a part of our provision and we use it to ensure that we can offer the best possible opportunities to our students. We do this by separating our funding into two key areas:

1. Raising academic achievement of pupils
2. Pastoral support and providing opportunities to improve children's well-being

As we constantly seek to improve our provision for all students. Some of the approaches that were used during the academic year of 2019-20 will not be rolled over to 2020-21, however the successful ones will be continued.
